

One Loom Snowman!

by
Michelle
The Loomer™

This is an advanced project.... but with a little practice you can do it!
Assembly for "Arms", Earmuffs, Eyes, Nose and Scarf are on next page.
Be sure to have yourself the *Most, Very Merry, and Happy Holidays!*

Bands you will need: **75 white** (shown as **blue & purple**), **13 green**, **6 red**, **4 black**, **4 brown**, **1 orange**. The **Purple** color is a single white band double looped.

"Arms" attached with slip knot on both sides, here

Slip Knot a band to finish end.

It is very important to lay down bands in the correct order bottom to top and Loop in reverse order. Try not to let bands twist and keep bands separated on each peg.

All vertical bands will be placed from bottom to top.

Most pegs have 2 bands. All horizontal bands will be placed AFTER vertical bands.

Bands for head are placed like a Starburst **on top** of earmuffs, headband, and eye cap bands THEN looped like a starburst.

After looping center layer bands of starburst head - flip eye cap band over peg from outside onto band. Bands from earmuffs will float between starburst bands.

Finish looping outside of starburst, and then continue looping as usual. At center joints, make sure to loop uppermost bands first. Loop diagonal bands across to next peg in direction of purple arrows.

Finish with slip knot. Carefully remove Snowman. (The side facing up on loom is the BACK of the Snowman) Pull slip knot band thru last row body at **green dashed line** and tuck under body bands on back.

Cap band wrap 3x Cap band wrap 4x

An easy way to double loop is to wrap straight across first then pull up to center peg to make a triangle.

Snowman Assembly

Buttons

Wrap 1 black 5x pull a single white band thru and place across loom

Ear Muffs

Wrap 1 green band 4x pull 1 double green band thru then pull second double green band thru, place on loom at sides of head then twist single band stretch over top 3 pegs - BEFORE adding center star bands-

Eyes

Make a small knot with 1 black band; place both ends on peg as a cap band. AFTER looping center of starburst flip black band over peg (from outside) onto center band.

Carrot Nose

Make a small knot with 1 orange band then pull single white band thru and slip knot add 2nd white band and slip knot to 1st white band. Shape orange knot into a point.

Pull white bands of nose thru center of head front to back and pull up catching a couple bands on back of head. Then thru top cap band

Stick Arms

Make small knots on ends of 4 brown bands then slip knot 2 bands together, to make 2 stick arms.

Slip knot arms to each side of body

Scarf

Using 2 bands together, slip knot end-to-end 3 red sets and 3 green sets. Tie a knot in the center of each section. Cut end bands to make fringe. Slip one end between loops other end to make scarf stay around neck.

Cut off both ends here.
